Second Virtual VBER Event - Q&A

During our 2nd Virtual VBER Event, we received a lot of interesting questions via our chat function.

As a roundup to our series of posts on the VBER Event, the DLC contributors reply to your questions in a Q&A.

We had a chance to verify the answers with the case team at DG COMP, making the Q&A a must-read for the latest developments on the block exemption and guidelines.

Feel free to share this document with your network and stay tuned for more.

We will continue to provide you with essential and up-to-date information on developments in EU and national distribution law!
